

MINING NOTES OF INTEREST

SOME RICH ORE AT ROUND MOUNTAIN

Cy Johnson came in from Round Mountain Sunday evening and will remain here several days awaiting the arrival of Albert F. Averill and George M. Lowery, of Pomfret Center, Connecticut. Mr. Averill is vice-president of the Solid Gold lease in Round Mountain, which Mr. Johnson is operating, and Mr. Lowery is a heavy stockholder in the same company. Both gentlemen will remain for some time in the southern country and while here will make an extended examination of the Round Mountain property.

In speaking of the Solid Gold lease last evening Mr. Johnson stated that the new mill is being rapidly erected. "We have about twenty men employed at both the mill and mine and about December 10 the stamps will start dropping. There is on the dump between 700 and 800 sacks of high grade ore waiting to be treated, and this amount will be greatly added to before the mill starts. In the mine we have about 700 feet of work done. That means in both sinking and drifting. The shaft is down 200 feet and when the air compressors are installed air drills will be instituted and the work can be done much faster.

"The company will in the near future take several leases on the Red Top ground and commence operations on them. The new mill is one of the Merrill stamp variety and will have a capacity of sixty tons daily. We will probably do custom work also, of which there is a great demand in the camp.

"Last week we encountered an ore shoot about six inches in width that comes very nearly being the pure quartz. When it was exhibited to the people of Round Mountain it caused nearly a sensation, and many were the comments on the beauty of the specimens."

Mr. Johnson brought in with him a number of specimens from the Solid Gold lease, which is situated on the ground of the Daisy company, and everyone is a beauty in itself. Gold runs all through the rock and is enough to make anyone's eyes water.

PIOCHE MAY GET BIG SMELTER

SALT LAKE, Nov. 23.—A party of big Park City mining operators, accompanied by the smelting expert and engineer, H. C. Bellinger, have been spending a few days in the camp of Pioche. Some of them have property interests down there now, and others are expected to invest, while the whole crowd is understood to have been taking the camp's measure more with an idea of what it can be expected to show in the way of tonnage for a smelter than anything else. These are matters, of course, that the party will not discuss at the present time, but there is not the slightest doubt that the matter mentioned is a live issue with them.

It is not believed that the visit means a smelter for Pioche; rather, it is thought that it has to do with the inauguration of the smelting business at a point nearer Salt Lake, a point that would make a large scope of mining territory tributary and insure the success of the business from the start. It is known that Park City operators are disgusted with the treatment they receive at the hands of the smelter trust, and it is also known that they have no notion of being held up by the trust longer than is absolutely necessary.

BIG GOLD ASSAYS.

Probably the biggest gold assays ever obtained in this camp came from samples taken from the Last Chance claim belonging to the Austin Gold Mining company. The ground lies near the Stokes Castle. The values run \$219.40, \$46 of which are in gold; \$176, \$79 of which are in gold.—Austin Reveille.

FIND RICH ORE.

The White mountains, in the vicinity of Coldwater canyon, are the scene of a rush of prospectors. The stampede from Owens valley towns was caused by a discovery of rich gold ore by D. C. Anderson of Bishop, California. The ore is a decomposed quartz lying between granite and lime.

PROGRESSING AT MASONIC.

The Masonic district, which is two years old and comprises an area two miles square, is coming to the front wonderfully of late. It has attracted the attention of eastern capitalists for the past two years, and Wingfield and Nixon at one time had several pieces of property bonded there at round figures but allowed their interests to lapse soon after the recent panic and tried later to renew the bond at even higher figures but were unable to do so.

NEW MANAGER FOR JACK POT.

George Sanburn arrived here this week to take charge of the properties of the Jack Pot Consolidated Mining company, vice Fred M. Harris, who left this morning for San Francisco. Mr. Sanburn spent the week superintending development work and in making himself familiar with the Jack Pot ground. He came here almost direct from Alaska, and is a mine man of considerable experience.—Wonder Mining News.

AN IMPORTANT STRIKE.

The property of the Hero-Nevada company at Farrell was the scene of a most important strike during the past week. A streak of high grade shipping ore has been opened on the eighty-foot level and four and one-half feet of milling rock that will go \$40. Conditions in the south drift on the same level are also greatly improved and eighteen inches of very high grade ore is now exposed in this portion of the workings.

GOLD DREDGING.

It is reported that a company interested in a gold dredging proposition has taken an option on J. A. Conway's ranch near Sweetwater. An old river channel, from which some rich panning have been taken, runs through the Conway ranch, and it is thought that is the proposed scene of operations for the dredging company. Conway owns a valuable water right, with ample water to run a dredging plant.

LOCATION WORK.

The season for completing annual assessment work is at hand and those who have thus far neglected this necessary compliance with the law should make haste to attend to it. There are those who think relocation will answer all purposes, but if another party locates the claim and can prove that assessment work has been neglected the relocater will not be able to make his claim good.—American Mining Review.

HUMBOLDT COUNTY.

The Sims, Crumpacker and Hill properties, located about five miles northwest of Winnemucca, have been purchased by L. A. Friedman for a substantial price, half of the purchase price being paid down and the other half to be paid within thirty days. These properties consist of nine claims located in the vicinity of Lovelock, and on a porphyry ledge some excellent surface showings have been obtained.

LIBERTY MINE RESUMES.

The Liberty mine, a silver-lead property, located about eighteen miles from Tonopah, has resumed work, and it is promised that operations will be continued aggressively. The mine has produced intermittently for years. The Cramps, Philadelphia shipbuilders, are the principal owners.

Location notices in triplicate—handiest affair for prospectors and miners—contains carbon—150 notices in book. For sale at the Bonanza office.

GOOD FIGHT AT

THE BIG CASINO
There was a neat little four-round scrap last evening at the Big Casino between Jimmie O'Conner of San Francisco and Kid Miller of Wisconsin. It was a grudge fight between both boys and they waded in to each other in the hammer and tongs style. At the end of the fourth round the decision was given to O'Conner. The fight was appreciated by the large crowd present and both participants seemed to have no end of admirers.

SYLVANITE HAS RIVAL IN

NEW MEXICO CAMP
EL PASO, Nov. 23.—Many persons are leaving here for Gold Pass, New Mexico, a short distance east, where gold discoveries have been reported, and promises to equal Sylvanite, which had over 1000 inhabitants in one month after it was located.

NEW ADVERTISEMENTS.

Albrecht Furs
Northern-Caught
"From Trapper to Wearer Direct"

LEADERS of fashion in every community wear these famous furs. Made for 53 years in Saint Paul, the city celebrated for the best furs in the world.

We invite lovers of fine furs to call on our representative, Mrs. Isabel Riddell, who will show a full line of magnificent "Albrecht Furs" at the

HOTEL MIZPAH

Nov. 24, 27 — Dec. 3, 4, 5

(Positively these dates only)

You are cordially invited to be present. We hope you will see something you like; but you will not be urged to buy, or annoyed by persistent salesmen.

(Orders taken for future delivery. Only small deposit necessary.)

If interested, for you to see the exhibit, do not fail to write address below for copy of Catalog. R. Finest fur book ever printed. Sent FREE on request.

OHIO COUNTIES "DRY."

(By Associated Press.)

COLUMBUS (O.), Nov. 23.—By majorities of respectively 1700, 600 and 975, Jefferson, Sandusky and Clermont counties today voted "dry," knocking out 210 saloons. Huron county voted "wet" by a majority of fifteen.

CASES SET FOR TRIAL MONDAY

Yesterday in the district court a number of civil and criminal cases were set for trial. The case of the Nye and Ormsby County bank vs. John McKane will be heard by a jury trial on November 30.

William Martell, charged with having burglarious tools in his possession, had his case set for December 2.

O. S. Avery, charged with receiving stolen property, will be tried December 3.

M. South, of Rhyolite, charged with mayhem, will be tried December 7. The case of the Congress Mining company vs. Alice M. Swain et al. has been set for December 8.

The case of the Herring-Hall-Martin Safe company vs. Letson Balliet is set for December 9.

The case of the Robert Rand Shoe company vs. H. A. McKim is set for December 10.

The two cases of W. A. Gray vs. the Philadelphia Fire Insurance company, also the case of W. A. Gray vs. the Western Assurance company, were set for December 11.

The case of W. A. Gleason vs. John Clendennin is set for December 11.

Fred Newton, who was recently indicted by the grand jury on the charge of killing Frank Cliscillini at Round Mountain, was arraigned yesterday in the district court and given until today to plead to the indictment. The case will be set for trial after he enters his plea.

Location notices in triplicate—handiest affair for prospectors and miners—contains carbon—150 notices in book. For sale at the Bonanza office.

RAILROADS COMBINE TO

SEEK SAVING OF FUEL

CHICAGO, Nov. 23.—The International Railway Fuel association, the object of which is to discuss and improve methods of inspection, handling and the economical use of coal and fuel used by railroads, was organized here today by the representatives of forty railroads. Eugene McAniff, of the Rock Island, was elected president, and Thomas Britt, of the Canadian Pacific, vice president.

TURNING OUT THE BEST WORK

The blindery of the Bonanza is turning out the best work in the city, and it is giving such great satisfaction that anyone who has his work done there once, never goes anywhere else. The plant is the finest and most complete, not only in the State, but this side of San Francisco. We can turn out all kinds of work that is demanded in the offices of lawyers, brokers, promoters, mining companies, or for any other kind of business, and we guarantee satisfaction in every respect. One trial will be sufficient to establish the truth of this statement. It pays to go where only the best kind of work is done, and it pays to patronize home industry.

When do You Hire a Doctor?

Not when you're well, we bet. But when you are sick you get busy with the medico and his drugs. Do you have as much sense in connection with your business? You don't. When your business is good you advertise. That's when you don't really need it. When business is dull, when people need persuasion to come into your store, is when your business needs a stiff tonic—a good advertisement. Right now your business needs a bracer. We prescribe this space for you, and if you come and see us today we will make you a price on it you can't resist. Want to get rid of those winter and holiday goods? Buy this space, today.
